Registration

Registration Fees Details :

- Students(UG) 600 Max of 2 authors (Additional authors have to pay Rs.300 per head)
- Students(PG) 1200 per head
- Faculty and Research Scholars 1200 per head
- Industrial Delegates 2000 per head

For paper presentation, if the paper is by a single author then he/she must register for the conference ; if it is by more than one author then at least one of the authors must register for the conference on or before 20.06.2023. Direct your queries if any, with respect to paper submission or any related matters to the e-mail: icricc2023@gmail.com. Authors have to pay additional charges for publication in Scopus Indexed journals.

Bank Account Details :

Account Number: 721001001569
Bank Name: ICICI BANK
Account Name : CSE ROHINI COLLEGE OF ENGINEERING AND TECHNOLOGY
IFSC Code: ICIC0007210

Submission

Manuscript Submission :

Prospective authors are invited to submit manuscripts reporting original unpublished research and recent developments in the topics related to the conference. It is required that the manuscript follows the standard camera-ready format (Times new Roman, single column, 12-point font). Submissions must include title, abstract, keywords, author and affiliation with email address

Copy of the full paper not exceeding 6 pages prepared in MS Word format should be sent to icricc2023@gmail.com

Publication

Proceedings Publication:

The registered papers of ICRICC 2023 will be compiled in the form of proceedings with unique ISBN.

Journal Publications:

All the selected and presented papers in the conference will be published in any one of the following journals based on the area of the paper. Conference Chair's decision is final on publications concern of the journals.

- International Journal of Scientific Research in Science, Engineering and Technology
- International Journal of Advanced Trends in Engineering and Management

INTERNATIONAL CONFERENCE 2023

Rohini College of Engineering and Technology is proud to announce its International Conference on Recent Innovations in Computer and Communication. ICRICC 2023 is an International Conference on Emerging trends in Computer and Communication.

ICRICC 2023 intends to offer an energetic environment by bringing together Researchers, Professionals, Academicians, Corporate & Industry Professionals, Technically sound Students, and Entrepreneurs from various organizations all over the world under one roof which facilitates them to exhibit, exchange and confabulate their pioneering works on their appropriate topics of interest.

About the Institution

Rohini College Of Engineering and Technology was established to accomplish and maintain international eminence and become a model institution for higher learning through dedicated development of minds, advancement of knowledge and professional application of skills to meet the global demands under the superintendence of our Chairman Shri.K.Neelamarthandan. Our Pro-chairman Dr.N.Neela Vishnu facilitate our college with his ingenious ideas. The Institution strives to set high standards of comprehensive education by developing the intellectual strength of students and guiding them towards technical advancement and synergize the efforts of various departments, inspire creativity and foster excellence and innovation in teaching and learning so as to make our institution as a premier Engineering Institution and to nurture the development of mind, skill, attitude and core competence of students. A holistic environment is needed to produce fruitful result in the academics. Education and environment should go in parallel. The environment is so friendly that the students are self motivated to concentrate in their studies. The institution is located on a lush green surrounding. The location is very breezy spreading the fragrance to all of its directions. The layout of the class rooms, laboratories and workshops are arranged in such a way that facilitates the students to access all areas at ease. Well qualified and experienced faculty members impart quality education in a green environment and a good and pleasant infrastructure.

About ICRICC 2023

ICRICC 2023 aims to provide an excellent international forum for industry professionals and researchers to deliberate and state their research findings, discuss the latest advancements and explore the future directions in the emerging areas of Engineering and Technology. The conference also promote, encourage and bring together the researchers in the field of Advanced communications, Artificial Intelligence, Image processing, Internet of Things, Block Chain, Cloud Computing, Neural Networks, Nanotechnology, DNA computing, Signal processing, Innovating new technologies and updating the existing are essential to reinforce the capabilities or achieving sustainable development in economical growth of the world, and overall welfare of the society. The conference also brings together the researchers, scientists, engineers, academicians and PG scholars to exchange and share their experiences, new ideas, and the research outcomes of all possible aspects of Engineering Technologies.

Accepted papers, presented will be published in the proceedings of ICRICC 2023.

About the CSE Department

Computer Science Engineering is the most prevalent course for the Engineering aspirants. The fastest filled branch during the counseling of the top engineering colleges is the Computer Science Engineering department. Computer Science Engineering deals with design, implementation, and management of information system of both software & hardware processes. World class infrastructural facilities and the latest model computers equipped with updated technologies gives the students an everlasting learning experience.

The department has dedicated faculty members to offer high quality teaching services, and they are more than capable of that, due to the top qualifications and exhaustive experience they have. Produce graduates of International distinction, committed to integrity, professionalism and lifelong learning by widening their knowledge horizons in range and depth. Enable students shine in their academic pursuits, making them sensitive to the needs of the progressive industrial world. Organize a pluralistic and supportive environment that will stimulate students and staff of the highest caliber and contribute immensely to the process of Nation building through partnership with Community and Industry.

Department Vision:

To create young software professionals to compete the global challenges in the field of computer science and engineering and be researcher to meet the need of society.

Department Mission:

- To provide quality education to. develop software for real time problem in scientific and business application for various needs of industry.
- To provide learning ambience to enhance innovations, problem solving skill , leadership qualities, team spirit and ethical responsibility to serve the society.

Call for Papers

The topics of the conference include, but not limited to the following

- | | |
|---|-----------------------------------|
| • Internet of Things | • Expert Systems |
| • Block Chain | • DNA Computing |
| • Machine Learning | • Smart Digital Speech Processing |
| • Cryptocurrency | • High Performance Network |
| • Zigbee technology | • Smart Multimedia Communication |
| • Fog Computing | • Information Retrieval |
| • Crypto Watermarking | • Neural Network and Fuzzy Logic |
| • IP Address Spoofing | • Nano Technology |
| • Android Technology | • VLSI Design |
| • Computational Intelligence | • Robotics |
| • Cloud Computing | • Smart Grid |
| • Image Processing | • Multimedia Database |
| • Artificial Intelligence | • Web Based Applications |
| • Grid Computing | • Information Security |
| • Wireless And Mobile Communication | |
| • Smart Video and Image Compression | |
| • Ad-hoc ,Wireless and Sensor Networks | |
| • Microcontroller and Embedded Systems | |
| • Mobile Computing and its Applications | |
| • Computer Graphics and Virtual Reality | |
