### FEEDBACK ON FACULTIES

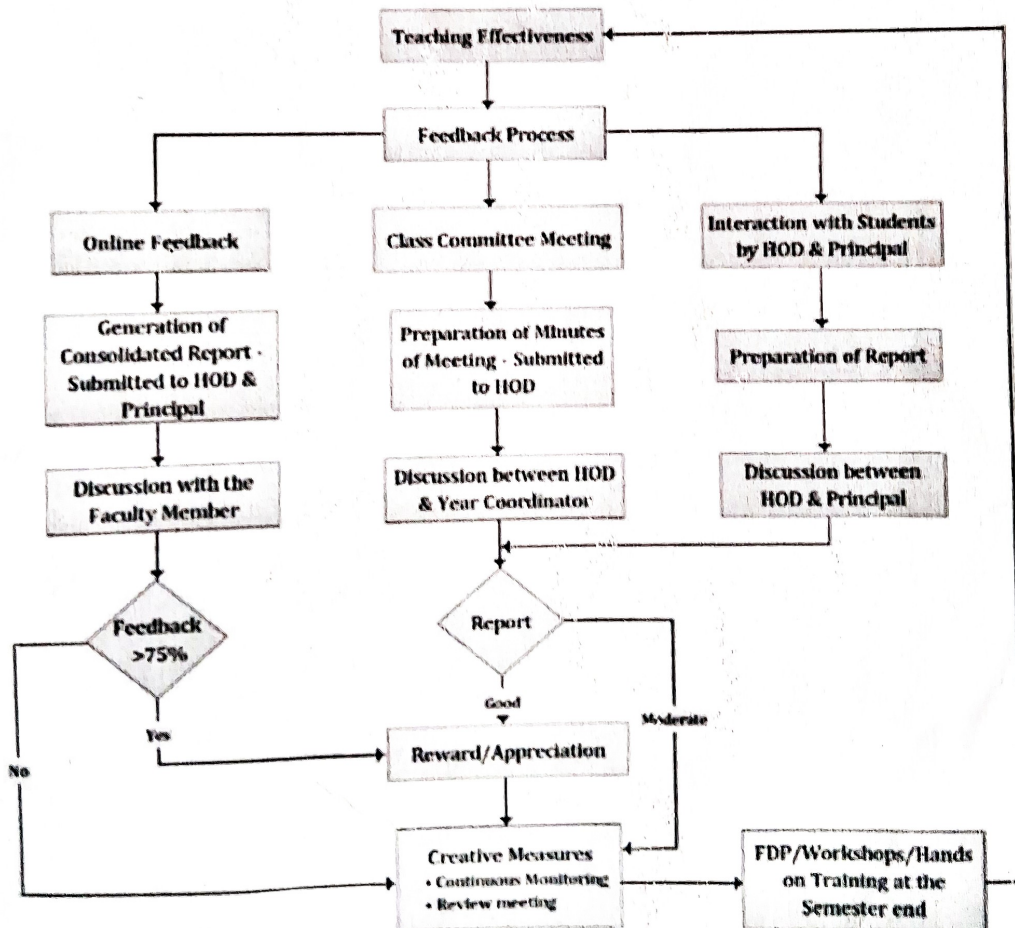

#### Process of Feedback on Faculty

The Student feedback collection is done with a structured questionnaire on a 5-point scale to assess the teaching effectiveness of individual faculty. Feedback is collected for all courses and 100% participation of the students is ensured.

Each student is given one-time password to access on-line feedback for individual subject.

Student's feedback is analyzed and improvement plans are initiated to enhance the quality of teaching.

The student online feedback process is explained through the following flow chart

**Reward /corrective measures taken, if any**

- RCET fixes the target level of faculty as 75 out of 100.
- If a faculty member gets more than 75, he is eligible for rewards.
- On the specific day, those faculty members are awarded with promotions, incentives, etc.
- If the faculty member scores less than 75, then he/she is suggested by corrective action for their poor result. Counseling is given to the concerned faculty by HOD and Principal to improve in the quality of teaching. HOD/Principal reviews the feedback report and following corrective measures will be initiated if the feedback is less than 75% in consultation with the Principal to enhance teaching effectiveness faculty members.
