ALUMNI MEET

Alumni play a vital role at Rohini College of Engineering and Technology, fostering a strong connection between the institution and the industry since its establishment. The primary aim is to enroll all graduates as members of the Alumni Association and encourage their active involvement in the institution's events, projects, and activities. The association's mission is to build a bridge between alumni and the college, develop collaborative plans to support institutional goals, and create value for all stakeholders.
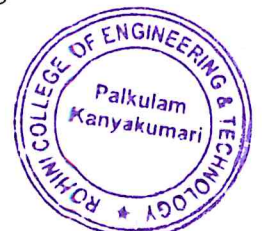

In 2017, the institute set up an Alumni Cell to strengthen ties with its former students. Regular gatherings, webinars, seminars, and guest lectures provide opportunities for ongoing engagement. The Alumni Association supports networking among alumni and facilitates links with the corporate sector. An annual alumni meet, organized by the association with management support, invites alumni from various disciplines to share insights about their fields, promote professional awareness, and reminisce about their college days. These events also enable alumni to interact with each other and share their expertise and career experiences with students and faculty.

Key Contributions of Alumni:

1. **Curriculum Development:** Alumni help identify gaps in the curriculum and contribute to designing value-added courses. They also participate in monthly technical webinars.

2. **Interactive Sessions:** The association organizes sessions where alumni inspire current students with insights on career opportunities, study abroad options, and professional growth. Alumni also engage with students through social media platforms.

3. **Industry Collaboration:** Alumni facilitate the signing of MOUs with industries, organize industrial visits, and mentor aspiring entrepreneurs by offering advice on starting businesses. They also assist students in securing internships.

4. **Research and Consultancy:** Alumni encourage research and consultancy in fields such as engineering, automation, and industrialization. They also connect entrepreneurs with the institution for collaborative technical projects.

5. **Mentorship:** Alumni provide guidance in their areas of expertise, mentor students to enhance their skills, and help them secure suitable career opportunities.

6. **Placement Support:** The alumni network is a significant resource for student placements, offering company referrals and employment opportunities in their organizations.
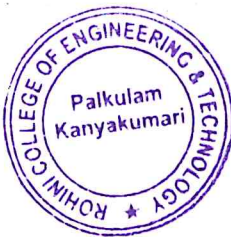

Details of Alumni Meet organized by Rohini college of Engineering and Technology Alumni Association

1. **"ALUMNI MEET 2023"/ 18-12-2023**

The Rohini College of Engineering and Technology Alumni Association organized a grand Alumni Meet on 18-December-2023, bringing together students from the Computer Science, Mechanical, ECE, EEE, and Civil Engineering departments. The event was graced by Dr. N. Neela Vishnu, Pro Chairman, as the Chief Guest, and presided over by Dr. V. M. Blessy Geo, Managing Director. Principal Dr. R. Rajesh also attended and honoured the occasion with his presence. The event was coordinated by Mrs. Aswini, Assistant Professor of Civil. During the program, several alumni shared their experiences and insights with the current students.
