### **“Exposure and field visit for problem identification”**

A Session on Exposure and field visit for problem identification was organized by Rohini College of Engineering and Technology to Students on October 12,2023 at Keltron,Kerala and Network Systems, Nagercoil.

Students from ECE have undergone various companies what they prefer for their work like software and hardware and they got the ideas of some of the industrial benefits

In Network system they have the networking procedure and various thoughts of internet and software solution were given to make heavy work to low. The network procedure was given to them and various problematic question were gathered and solution were drawn.

In Keltron, they have developed the PCB of Rockets, how it performed and what are the ways to overcome the problems and many solutions were drawn over the ways of outcome.

Through this field visit many students were got an idea to develop the new thing to overcome the problems of society.
